

## Case Study – Homes For Students

Homes for Students is one of the UK's leading providers of student accommodation. They have an excellent track record and take pride in the fact that many of our student residents choose to return to us year after year and recommend us to their friends.

They understand that having the right accommodation plays a big part in your learning, so they work in partnership with the universities and student unions to provide the best possible student experience.

Homes for Students is part of the ANUK national code, which demonstrates the commitment to providing good quality housing for students. You can rest assured that they will deliver a great service, and if a problem ever did occur, there are clear guidelines and procedures that we follow to resolve them swiftly and effectively.

Taking all of the above into account security onsite play a major part in keeping the student and our assets safe.

Security is provided at this property from every Friday, Saturday and Sunday across an array of shift patterns

Students feel safe knowing they have security patrolling, monitoring and being approachable for help, security position themselves on the main reception and act as a deuterate to anyone thinking they can gain access to site unchallenged.

With safety in mind security are at the forefront of everything that occurs onsite and perform an acting role not only towards the students but towards the Homes4students team.
